* La linea rossa indica la superficie smaltata / The red line indicates the glazed surface.

Attenzione! Colori ottenuti con smalti speciali con tendenza naturale al crackle e a bassa resistenza agli acidi e alle basi. Per la pulizia, utilizzare prodotti di uso comune ma non molto aggressivi, come candeggina e ammoniacca.

Avvertenze per la posa:
Presenza di micro-fessure sulla superficie che possono porcarsi e possono assorbire acqua o altri liquidi. Dopo aver eseguito la posa, ma prima della stuccatura, dovrà essere usato un sigillante (comunemente in commercio) per chiudere le micro-fessure. Solo dopo la completa asciugatura del sigillante si potrà effettuare la stuccatura.
Resistenza ai graffi (MOHS): non applicabile

Warning: They are made with special glazes that tend to have a natural crackle effect and low resistance to acids, alkalis and aggressive cleaning products. Do not use aggressive cleaning products (like bleach or ammonia). It is recommended to apply sealant before grouting.
Scratch resistance (MOHS): not applicable
